Response to Amendment

1. The amendment of January 4, 2012 is acknowledged and has been entered.

- 2. This application is not in condition for allowance due to the following issues.
- 3. Claims 22-28 and 32 rejected under 35 U.S.C. 251 as being broadened in a reissue application filed outside the two year statutory period. Claims must be narrower than those claims cancelled by the reexam certificate. Claim 1, before amendments made in the reexam certificate, is what was cancelled. A claim is broader in scope than the original claims if it contains within its scope any conceivable product or process which would not have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.
- 4. The statement of error in the declaration is insufficient. If error is corrected by the addition of new claims, the differences relating to the error between the new claims and patent claims must be explained in the declaration.
- 5. Claims need to be presented as they appeared in the reexam certificate with no underlining/bracketing. Support in the specification for the new claims must be given per 37 CFR 1.173(c).
- 6. A "catch-up" declaration stating no deceptive intent to cover all amendments is needed.
- 7. Any inquiry concerning this communication should be directed to Ken Dorner whose telephone number (571)272-8428. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300. Information regarding the status of an application may be obtained from the Patent Application
